 THE ULTIMATE HOT TUB EXPERIENCE™

EXPERIENCE

EXPERIENCE WELLNESS

Many people in the modern world choose to focus on experiences, create lasting memories, and live life to the fullest. We're here to support their pursuit.

Marquis™ passion is to create your Ultimate Hot Tub Experience!™...a re-imagined lifestyle that creates a life worth remembering, and enhances your health, connections with loved ones and peace for your body and mind. Our exclusive soothing, exhilarating hydrotherapy, anti-aging health and beauty system and pristine water – our “Big 3” promise to provide you with the Ultimate Hot Tub Experience! Let us show you the Signature Marquis story.

+ Follow the dots for a deeper understanding.

1-2-3

Where in the world is #LutherLoon?

EXPERIENCE HEALING THERAPY

The therapeutic benefits that hot tub owners enjoy are vast. From physical to emotional stress relief, alleviating muscle pain to relief for arthritis, a warm hot tub can help bring your health into balance: a hot tub by Marquis may be just what the doctor ordered.

High Output Therapy, powering our H.O.T. Zones™, is a carefully planned laminar flow of water from our pumps. Channeled by our 3-2-1 Zone Control™ valves, you customize

the flow to specific areas through high-flow tubing and our proprietary hydrokinetic (HK™) jets. We artfully hydro-engineered how the gallons-per-minute flow provides the best massage benefit to each seat. Higher volumes of water flow through our system design (high flow) to more effectively massage muscle mass and deep tissue without the force other brands deliver (high pressure) which irritate the skin surface.

H.O.T. Zones are, well...hot! Various models incorporate additional Shoulder, Lumbar, Foot, and Therapy Pillar H.O.T. Zones which includes

whirlpool systems and geyser jets. H.O.T. Zone jets give you the industry's best targeted control system for hydrotherapy to specific areas of the body for more therapeutic deep tissue and fascia massage.

Marquis is obsessed with hydrotherapy. Reason #1 of our "Big 3" for why you'll want to choose Marquis: *The Ultimate Hot Tub Experience!*™ When it comes to therapy, Stop by your local Marquis Dealer and schedule a private wet test today... try it before you buy it!

marquisspas.com/therapy

H.O.T. ZONES

"I was spending \$200 to \$300 a month on massages to help with old sports injuries. Went golfing with a friend and he had a spa at his house. After 36 holes... 15 min in the spa felt great. Started shopping for a spa and decided on a Marquis spa. Best money I ever spent. Use it year round, it's 15 min of heaven every day."

-Dan

MARQUIS
The Ultimate Spa Experience™

HIGH-FLOW

"I was diagnosed with chronic fatigue and fibromyalgia. My doctor suggested that a spa would help my condition. I felt dramatically better after a short time of using it."

-Nadene

WE ♥ CLEAN WATER

ConstantClean+ is precisely engineered for clean water

1. Vortex skimmers skim surface contaminants then direct them into filter cartridges
2. Water is also drawn from the footwell through a safety suction fitting
3. Water is forced upward through the filter to trap debris mixing, recirculating and filtering all water; surfaces to floor
4. Filtered water is drawn into the primary jet pump
5. Water is routed through the high-flow heater assembly
6. Ozonator converts oxygen into activated ozone gas. Mazzei® injector mixes ozone with water which is then introduced into the mixing chamber
7. Bacteria and other contaminants are oxidized before ozone converts back to oxygen
8. Unused ozone and converted oxygen are reintroduced into the spa water
9. Water passes through the in-line sanitation system and is treated with sanitizers before reentering the spa

EXPERIENCE CLEAN WATER

Let's clear the air about clean water You will probably hear somebody claim to have 'chemical free' hot tubs... or how salt water systems are a chemical free way to use a hot tub. In truth, every few years somebody new introduces another salt or UV system with claims of 'no need for sanitizers... or some other innovation that replaces the concepts which have protected people and their hot tubs for decades. A few years later these systems disappear because

they destroy the spa's operating equipment, have huge annual replacement parts costs or fail to properly sanitize the water. Marquis continues to test all such 'innovations' for potential use in our hot tubs... and we consistently recommend only what we know is the safest and cleanest concepts for our customers and their hot tubs.

At Marquis we believe clean water is not an option... clean water is critical and we include our water management system as standard in every hot tub. Here's how we bring pristine to you.

ConstantClean+™ is the muscle

The *Ultimate Hot Tub Experience™* also means the cleanest water in the industry. And clean water comes from a superior system design for pristine water care. Our simple yet sophisticated ConstantClean+ system includes our unique Vortex™ filtration that pulls all of the water and debris from both the surface and bottom of the vessel. It pulls more gallons-per-minute through more surface area of antimicrobial treated filter media than any other system. Then the pumps pull it through the heater and on to the ozonator where ozone oxidizes bacteria

or contaminants. Minerals and sanitizers added through our convenient in-line delivery system further soften and sanitize the water on a continual, automated basis.

SmartClean™ is the brains

And all of this clean water system is run by our SmartClean™ software automatically scheduled for after you use the hot tub and on a pre-programmed daily timetable. You just add sanitizer and any water balancing additives you need from time to time. This comprehensive management of the water care process results in less chemical use, longer periods between draining and refills, and

crystal clean water for hours and hours of hot tub enjoyment. Truly, the ultimate in clean water!

Marquis is passionate about clean, sanitary water; yet another "Big 3" reason you should consider a Marquis Signature Series hot tub for *The Ultimate Hot Tub Experience™*

"I owned another brand of hot tub, but my Marquis is by far easier to take care of. My water clarity is dramatically different! We wanted something that was easy to use and didn't stink like the old system. We have really noticed how much better our Marquis water smells and feels. Not only that, when I get out, my skin is not dry like it used to be in my old tub."

~Tom

S

MORE THAN THINGS, WE REMEMBER EXPERIENCES.

EXPERIENCE RADIANT HEALTH & BEAUTY WITH MICROSILK

Discover how a hot tub can change your life (and your skin). Marquis® MicroSilk® beauty treatment moisturizes and hydrates at the same time. Micro-bubbles literally envelope your body in a soothing, effervescent cloud of oxygen. MicroSilk® leaves your skin luxuriously silky with reduced fine lines and wrinkles. Oxygen levels with MicroSilk® are 70% higher than tap water. This abundance of oxygen correlates to that luxurious feeling, energizes skin cells, stimulates your immune system, kills bacteria and

promotes healing.

Yes, oxygen really is good for your skin. Increased oxygen levels result in better circulation and cellular respiration, which creates glowing and radiant skin due to rapid skin cell regeneration.

Real, tangible effects, no surgery and no recovery time, makes MicroSilk® hydrotherapy the anti-aging treatment of choice for the modern, sophisticated woman or man. Instead of invasive medical procedures, your treatment happens as you soak away all the worries of the day.

A MicroSilk® bubble is a negatively charged bubble approximately 50 to 100 times smaller than a typical hot tub bubble. Negatively

charged ions are credited with increased serotonin production in humans, which is associated with emotional stability, a sense of well-being and promotes restful sleep. They also help eliminate free radicals in the body which are known to cause cellular damage, help relax your mind and body, and enhance recovery from physical exhaustion. This is all part of the degenerative aging process, which contributes to premature aging.

Only Marquis has engineered the MicroSilk® pump for peak performance to provide the level of health and beauty oxygen treatment you deserve. MicroSilk® is another "Big 3" reason Marquis stands above the competition.

THE SCIENCE OF MICROSILK

Microscopic bubbles literally dive into your pores to oxygenate your skin, reduce fine lines and wrinkles and restore collagen as you soak!

EXPERIENCE WOW!

Marquis® Signature hot tubs are touted by industry professionals as the most beautiful hot tubs in the market. The moment you first set your eyes on a Marquis you'll be dazzled by the artistry with which it was sculpted - the sinuous, organic styling that threads throughout the body - the river rock footwell, hand-picked from an Oregon river - and the solid, exclusive DuratWood™ extruded from a hand-honed board. Marquis' eye for detail knows no bounds.

Entertainment and experiences for all of the senses...including your audio entertainment, chromotherapy, aromatherapy, and much more. The Adagio™ audio option comes with FM/radio and Bluetooth

connectivity. An optional RF Remote control allows you to manage your personal play list and an Audio Expansion Port upgrade can also provide connectivity for MP3 devices.

Light up the night with Constellation™, an upgrade to reach the stars and beyond! LED points of light encircle the interior and highlight the exterior in all directions. Constellation lets you select your favorite color or cycle through varying colors and transitions to entertain and relax you. Sights, smells, sounds and sensations: Marquis embraces all of your senses!

The Ultimate Package with SpaTouch2: touch screen technology takes you to the top of tech. It also bundles everything you desire for your hot tub: Bluetooth connectivity, Constellation, Aroma Infusions,

Environments™ step and bench, Cover Companion, and special extras: plush towels, Spazazz scents and, our very own ambassador to the hot tub lifestyle, Luther Loon.

Marquis Environments surround your Marquis hot tub with custom Environments modules to transform your outdoor living space into your personal hot tub utopia.

Designed and built by Marquis with the same exacting quality of craftsmanship and durable materials, Environments perfectly complement your hot tub and add a higher level of sophistication to your environment.

Choose from steps, benches, cabinets, counters, shelves, stools, towel bars and even planters to partner up with your Marquis hot tub!

SpaTouch2 is like having a personal computer in your hot tub! Taking control has never been so easy: follow the icons to fine-tune filtration settings, adjust temperature, turn on MicroSlik, check the time, find your mood music, dim the lights, touch the Soak button and settle in for a fabulous evening of creating new memories.

physical therapy. Hot tub and swim spa wishes can provide great relief from the side effects of chemotherapy and radiation treatments many wish kids have to endure - right in the comfort of their own homes. Marquis hot tubs and swim spas also create a sanctuary for the wish kids and their families to connect and spend time together.

The partnership is very meaningful to the people who are Marquis. In fact, we even made a hot tub to honor the work of Make-A-Wish: the Wish hot tub. The Wish is a uniquely shaped tub that offers ultimate therapy for a family of four. A portion of the proceeds of the sale of every Wish is donated to the Make-A-Wish foundation.

ENVIRONMENTS

EXPERIENCE COMMITMENT

Marquis® hot tubs are built in the heart of Oregon, home of the "green" movement, right here, in the USA! That explains our dedication to energy efficiency and our attention to our green initiatives.

"The Ultimate Hot Tub Experience" is a phrase that embraces every aspect of the Marquis brand. The ultimate customer experience, as you consider and buy your hot tub from a Marquis Dealer. The ultimate ownership experience, as you operate and maintain your hot tub over the years. The ultimate user experience, as you relax and enjoy your time in the hot tub. All these experiences can only be the "ultimate", when there is a very special foundation to the company of people behind it all.

Owner's Protection Plan
More than just a warranty, it's

comprehensive protection for you and your hot tub.

Hopefully, our commitment to quality and service helps make your decision a bit easier. But whatever brand you choose, get into hot water - it will enhance your life experiences.

EXPERIENCE CARING

Marquis and Make-A-Wish® team up to help wish kids find relief in the soothing water of a hot tub or swim spa. For the past 18 years, Marquis has been the preferred provider for Make-A-Wish hot tub and swim spa wishes. With the help of its dealers, over 800 hot tub and swim spa wishes have been granted to children with life-threatening medical conditions across The United States, Canada, and the United Kingdom.

Hot tubs and swim spas are ideal for children who require
