Pool Chemicals

Open Your Pool By April 1st:

SAVE **\$125 OFF** the cost of the opening*
..... *Must be scheduled by 3/12/26*

Open Your Pool By April 12th:

SAVE **\$50 OFF** the cost of the opening*
..... *Must be scheduled by 3/26/26*

Our Pool Opening Consists of:

- Removing the winter mesh cover.
- Re-installing ladders, handrails, skimmer baskets, equipment plugs & pump baskets.
- **Initiating filtration, including the addition of DE (if necessary).
- ***Initial vacuuming of the pool to waste (if additional vacuuming is needed, extra charges will apply).
- Shocking the pool with up to five gallons of liquid chlorine.
- Rinsing off the deck.
- Folding up the winter cover (cover will be left on deck to dry).

**For residential pools with one filtration system only (40,000 gallons or less).

***After opening, pool water may or may not be completely clear. It is the responsibility of the customer to maintain a high chlorine level after time of opening. If pool is left without further treatment, a large quantity of algae may become present. Some debris may be left on pool bottom if pool was cloudy. Additionally, the filter will fill with dying algae and other contaminants in the days following opening; it is the customer's responsibility to backwash filter as needed to continue normal operation. Additional charges will be applied for excessive water and/or debris on cover, two or more filtration systems, and installing disconnected pumps. Credit Policy:

Payment is due before services are rendered. We apologize for any inconvenience this may cause.

***Sparkle Pools not responsible for dry or brittle liners.
